

COVID-19

From June 8th all Dentists in England can return to work. Our Practice is working hard to ensure social distancing measures and the correct Personal Protective Equipment (PPE) is in place. The safety of our patients and staff is our priority.

Anyone visiting the Practice please consider the following

- You must have a prior appointment by telephone.
- With the exception of children and persons in need, patients should come alone.
- Toilet facilities are suspended following Government guidelines at the present time.
- Patients should attend wearing a face covering if possible and should be prepared to have their temperature taken and asked to sanitise their hands.
- A two metre distance should be observed.
- The Dental Team may be wearing a higher level of protective equipment.
- Payments to be paid by card as no cash is accepted at the present time.

At present we are unable to see any patients who are not regular attendees.
